V. ORGANIZATION AND DISCIPLINE.

The discipline is all that could be desired. The only point in connection with the organization that is open to question is the moving of the pupils from room to room rather than the changing of the masters. I prefer the latter plan especially in the case of junior classes.

VI. SUBJECTS PRESCRIBED BUT NOT TAUGHT.

VII. CHARACTER OF THE TEACHING IN THE DIFFERENT DEPARTMENTS.

NOTE.—The general estimate ranges from I., the highest, to IV., the lowest.

1. English I ; 2. Mathematics I in advanced work, II " Courses ; 3. Science I ;

4. Classics I ; 5. Modern Languages II – I ; 6. Commercial Subjects I ;

7. Other Subjects (Music, Drawing, Gymnastics) I .

Excellent work is being done in all departments I pointed out to the headmasters two or three minor points in connection with which I thought there might be some improvement but on the whole the character of the teaching is very satisfactory.

I wish to call especial attention to the work of Captain Clark in Drill and Calisthenics; the pupils showed a proficiency in these subjects that I have never seen surpassed.

This Institute is in a healthy condition; the spirit that pervades it is excellent, the discipline being maintained without apparent effort. If the circumstances of the Board will at all permit it I recommend that the salaries of Messrs Logan & Smith be advanced; great difficulty would be experienced in replacing either of them.
